Safe Keeper Products

**Fall Protection Equipment & Systems**

**Safe Keeper** provides fall protection products manufactured with the highest quality, cost-effective materials. Designed by safety professionals with practical experience for field use, we offer fall protection solutions for a wide range of applications.

## CONTENTS

### ■ **HARNESSES** ..... 3-5

Our harnesses prioritize workers' safety, comfort, support, and productivity at heights. With our harnesses, users can feel confident in any work environment across various industries. Our hardware is all black anodized, and customization options are available.

### ■ **SELF-RETRACTING LIFELINES & LIFELINE SYSTEMS** ..... 6-7

We offer self-retracting lifelines (SRLs) that can be used in multiple industries and applications. Our SRLs reduce the free fall distance of users and minimize the risk of injury. Class A, B, and leading-edge self-retracting lifelines are available to meet your needs.

### ■ **LANYARDS** ..... 8

Our premium lanyards have undergone rigorous testing to ensure they meet the highest standards for fall arrest, work positioning, and restraint purposes.

### ■ **CONFINED SPACE ENTRY** ..... 9

Our tripod systems are essential for confined space entry and retrieval plans and boast a sleek and modern design. Their durability, portability, and reliability make them the perfect choice for ensuring safe planning, entrance, exiting, and retrieval.

### ■ **ANCHORAGE** ..... 10

Our anchorage components are expertly crafted to meet various general and specific application needs. With unparalleled attention to detail and quality, you can trust that our components are the perfect solution for your anchorage needs.

### ■ **BUILD A FALL PROTECTION KIT** ..... 11

With our comprehensive fall protection kit, you'll receive a duffel bag with one high-quality anchor, one harness, and either a lanyard or a self-retracting lifeline.

### ■ **LADDER SAFETY SYSTEMS** ..... 12

Our Safe Climber ladder safety systems are designed to endure even the harshest environments. They can be installed easily on new or retrofit applications and include nonferrous components built to last.

# HARNESSES

Our **Grizzly Economy™** safety harnesses are an excellent option for those who want reliable protection at an affordable price. These harnesses come equipped with a fall indicator and coated hardware, which helps prevent corrosion and extends the lifespan of the harness.

- ▶ Adjustable shoulder straps
- ▶ Adjustable tongue buckle leg straps

- ▶ Dorsal D-ring for fall arrest

## 5-Point Full-Body Harness

**FAP15502G-SSS** - Dorsal D-Ring

- ▶ Pass-through buckle on the chest strap

## 5-Point Full-Body Harness

**FAP15503G-SSS** - Dorsal and Hip D-Rings

- ▶ Pass-through buckle on the chest strap

## 5-Point Full-Body Harness with Spring Buckles

**FAP15502SG-SSS** - Dorsal D-Ring

- ▶ Pass-through buckle on the chest strap

## 4-Point Positioning & Climbing Harness

**FAP15504G-SSS** - Dorsal, Hip, and Sternal D-Rings

Meets applicable  
ANSI & OSHA standards

## HARNESSES

Our **Wolverine Repel™** safety harnesses feature high-tenacity polyester webbing that is coated to protect against oil, dust, dirt, and water making them ideal for various industries, including petrochemical, painting, water treatment, food processing, offshore, and general applications. Additionally, our harnesses are equipped with a fall indicator and coated hardware to provide extra resistance against corrosion.

- ▶ Adjustable shoulder straps
- ▶ Adjustable tongue buckle leg straps
- ▶ Dorsal D-ring for fall arrest
- ▶ Pass-through buckle on the chest strap

### 5-Point Full-Body Harness

**FAP15502G(OR)-SK** - Dorsal D-Ring

### 5-Point Full-Body Harness

**FAP15503G(OR)-SK** - Dorsal and Hip D-Rings

Our **Kodiak Premium™** safety harnesses offer both protection and comfort. Padded straps are provided for the shoulders, back, and legs. Additionally, our harnesses feature a fall indicator and coated hardware to prevent corrosion.

- ▶ Adjustable shoulder straps
- ▶ Adjustable tongue buckle leg straps
- ▶ Dorsal D-ring for fall arrest
- ▶ Quick-connect buckle on chest straps

### Padded 5-Point Full-Body Harness

**PNT11G-SK** - Dorsal D-Ring

### Padded 5-Point Full-Body Harness

**PNT12G-SK** - Dorsal and Hip D-Rings

# HARNESSES

Our **Phoenix Arc™** harnesses feature flame-resistant webbing and dielectric hardware that can withstand up to 13,500 Volts. Our harnesses also come equipped with a fall indicator and coated hardware that resists corrosion to provide extra durability.

- ▶ Adjustable shoulder straps
- ▶ Dorsal and hip D-rings for fall arrest
- ▶ Pass-through buckles on the leg and chest straps

## 5-Point Adjustable Arc Flash Harness FAP15507(D)-SK - Dorsal and Hip D-Rings

## Attachable Shoulder/Back Pad SP001-SK - Harness not included

- ▶ Fits all Safe Keeper harnesses and others with 1.77" webbing
- ▶ Mesh pad easily and securely attaches with connectors

## Tool Lanyard TL01NB-SK

- ▶ Holds up to 11 lb
- ▶ Includes a light-weight carabiner

## Dual Leg Tool Lanyard TL02NB-SK

- ▶ Holds up to 11 lb x 2
- ▶ Includes a lightweight carabiner

## Suspension Relief Pack STS01-SK

- ▶ Allows a user to stand in a harness to relieve suspension trauma

## Attachable Padded Positioning Belt W2101G-SK - Hip D-Rings

- ▶ Adjustable grommeted tongue buckle
- ▶ Equipped with mesh and foam padding
- ▶ To be used in combination with a safety harness

52" length

Meets applicable  
ANSI & OSHA standards

# SELF-RETRACTING LIFELINES & LIFELINE SYSTEMS

We offer the **Walkabout Robust™** self-retractable lifeline series, providing a practical and cost-effective solution for industrial and construction purposes. This series includes various lengths suitable for class A, B, and Leading Edge (LE) applications, and each lifeline comes with a carabiner. The lifelines are sturdy and durable, with a robust casing and swivel anchorage for added safety.

## 4-Person Horizontal Lifeline System PN3001A-SK

The 4-person horizontal lifeline kit has all the necessary components for a temporary setup, including a horizontal lifeline with a length range of 15' to 100', a tensioner, a carabiner, steel O-rings, two anchor straps, and a fall indicator.

**ALL IN ONE**

# SELF-RETRACTING LIFELINES & LIFELINE SYSTEMS

Our **Joey Lightweight™** line of self-retractable lifelines is perfect for tough individual jobs. These retractables are compact and light, and workers prefer them for single or twin use. Each SRL comes with a carabiner and is the most lightweight option in its class. The casing is solid and long-lasting, and the lifelines are webbed with an energy absorber.

## 6' Webbed SRL ELE06-SK

- ▶ With quarter turn locking hook

## 6' Webbed SRL ELE06-SKRebar

- ▶ With rebar hook

## 6' Webbed SRL ELE06(D)-SK

- ▶ With dual carabiner and quarter turn locking hook

## 6' Webbed SRL ELE06(D)-SKRebar

- ▶ With dual carabiner and rebar hooks

## Small Carabiner PN113A-SK

- ▶ Steel quarter turn-locking

## Large Carabiner PN134A-SK

- ▶ Steel quarter turn-locking

## Dual Carabiner PN169-SK

CARABINERS

## Vertical Lifeline System RTSB(50)G-SK

The vertical lifeline system, also called the roofer's kit, includes a 5-point full-body harness, tongue buckle leg straps, and a 50-foot long, 5/8 inch diameter vertical lifeline. Additionally, the kit features a shock-absorbing lanyard with a manual rope grab assembly, a reusable hinged steel roof anchor, and a storage bucket.

# LANYARDS

Our **Dingo Core™** series offers a range of cost-effective single and dual-leg lanyards that can be utilized for non-SRL purposes. These lanyards are available in multiple hook and shock pack configurations to meet diverse needs.

## EL01-SK

- ▶ 18" D-ring Extender

## FAP31798-SK

- ▶ 3' single-leg restraint and positioning lanyard
- ▶ Attaches to anchorage

## FAP3118(6)/6-SK

- ▶ 6' single-leg lanyard
- ▶ External shock absorbing

## FAP30198(6)/6-SK

- ▶ 6' dual lanyard
- ▶ External shock absorbing

## FAP30199(6)/6-SK

- ▶ 6' dual lanyard with rebar hooks
- ▶ External shock absorbing

## FAP30398(6)/6-SK

- ▶ 4.5'-6' dual elastic lanyard
- ▶ Internal shock absorbing

## FAP30399(6)/6-SK

- ▶ 4.5'-6' dual elastic lanyard with rebar hooks
- ▶ Internal shock absorbing

## FAP30299(WL)-SK

- ▶ 6' dual arc flash lanyard with rebar hooks
- ▶ Internal shock absorbing

# CONFINED SPACE ENTRY

## Confined Space Entry System SA17-SK - Tripod only

- Includes adjustable 7' **Megapod™** with dual pulleys, carrying case

## Confined Space Entry System SA17(W)-SK - Tripod and winch

- Includes adjustable 7' **Megapod™** with dual pulleys, carrying case, and 65' winch and bracket

## Confined Space Entry System SA17(ALL)-SK - Tripod, winch, and SRL

- Includes adjustable 7' **Megapod™** with dual pulleys, carrying case, 65' winch and bracket, and a 50' 3-way cable SRL and bracket

## 65' Material or Man Lifting Retrieval Winch

- Features a secondary brake mechanism that helps reduce the impact force experienced in the event of a fall
- Independent reel mode makes installation fast and easy

## 50' 3-Way Cable Self-Retracting Lifeline

- Easily switch between fall arrester block mode to prevent falls while working at heights or a hoisting winch that can retrieve a worker quickly in case of a fall.

## 65' Winch PN818DP-SK

## 65' Winch Bracket SA17(25)Bracket-SK

## 50' Cable SRL PCGS50FT(R)-SK

## 50' Cable SRL Bracket SA17(26)Bracket-SK

Meets applicable  
ANSI & OSHA standards

## ANCHORAGE

### 3.5"-14" Adjustable Beam Anchor SA08-SK

- ▶ Made of aluminum alloy and brass
- ▶ Securely fastens to beam flanges to create an anchor point
- ▶ Adjustable to fit flange widths ranging from 3.5" to 14"

### Hinged Steel Reusable Roof Anchor SA01-SK

- ▶ Ideal anchorage for wood beams
- ▶ Bulk rate available upon request

### Wire Rope Sling 4' Sling FAP3408(4FT)-SK 6' Sling FAP3408(6FT)-SK

- ▶ Durable and easy to use
- ▶ Coated for additional protection

### Webbed Cross Arm Strap 3' Strap - PN806(3FT)-SK 4' Strap - PN806(4FT)-SK 6' Strap - PN806(6FT)-SK

- ▶ Choker-style anchor strap with a wear pad for extra protection and durability

# BUILD A FALL PROTECTION KIT

# LADDER SAFETY SYSTEMS

**Are you a business owner with employees working on fixed ladders?** Keep your workplace safe and OSHA-compliant with Safe Climber Ladder Safety Systems. Our factory-authorized installers can help you overcome compliance obstacles and ensure your ladder is equipped with a personal fall arrest or ladder safety system. Don't wait to replace your cages and wells—let us help you upgrade your existing fixed ladders over 24 feet today. Contact us to learn more about our safe and reliable ladder safety solutions.

## Stainless Cable Ladder Safety System PN7000-SK

- ▶ Easy-to-install and operate vertical anchorage line
- ▶ Made of strong stainless steel cable
- ▶ Equipped with a rope grab that smoothly moves up and down with the user
- ▶ Rope grab locks securely in case of a fall
- ▶ Mounting brackets are included for safe and secure attachment to fixed ladders

## Aluminum Rail Ladder Safety System PN8000-SK

- ▶ Features a corrosion-free, anodized aluminum-alloy guide rail.
- ▶ The fall arrest trolley glides smoothly over the rail, moving up and down with the user.
- ▶ In the event of a fall, the trolley securely locks in place to prevent injury.
